General Comment

My name is Brad Gollhardt. I am a global supply chain manager at DuPont.

I have heard the government is considering restricting the ability to trade options in IRA and 401K's.. I highly disagree with

this direction. When traded properly the use of options can actually reduce risk and improve yields when trading stable,

well run business, the type I generally invest in. I have taken the time to learn to use these techniques to consistently increase

yield of my personal accounts. Please to not take away my access to these valuable tools.

Thanks for the consideration to NOT restrict the use of options trading, as is being discussed.
